

2025 Fall Class Descriptions

Pre-K & Kindergarten

Pre-K & Kindergarten (4 and 5 year olds) Kara Foster \$150

We will solidify emergent reading and writing skills, basic math skills, as well as motor development and social/emotional skills. MAXIMUM 12

1st Grade

Me and My Amazing Body Jessica Darby \$40

Unit study to learn about the human body and how it works through books, hand on experiments, crafts, recipes, and more. MAXIMUM 15

Art Ashlee Sears \$40

Creativity will be explored each week with a craft or art project. Students will learn about colors, shapes, textures, and so much more using different materials while making their own unique creations. My goal is to help foster a love for art, books, and creativity. MAXIMUM 12

Music Caitlin Torrence \$40

Students will develop musical skill and knowledge of music theory and an appreciation for music through singing, listening, moving, and playing instruments. No prior knowledge or experience required. MAXIMUM 20

2nd-3rd Grade

Science Kailey Benson \$50

General elementary science with an emphasis on hands-on activities and experiments. MAXIMUM 10-12

Music Caitlin Torrence \$40

Students will develop musical skill and knowledge of music theory and an appreciation for music through singing, listening, moving, and playing instruments. No prior knowledge or experience required. MAXIMUM 20

Exploring Countries Around the World Ana Moseley \$40

We will visit countries around the world exploring cultures and landmarks.

4th-5th Grade

Spanish

Cynthia Lara \$40

Learning Spanish through engaging activities, lively songs, and exciting games.

Public Speaking

Terese Hasty \$30

The goal of this class is to help your child learn how to communicate more effectively and with more confidence in front of a group. We will use a variety of teaching methods to practice and improve our public speaking, including reader's theater, presentations, and class discussions. MAXIMUM 12

Alabama:A State Study

Sarah Sims \$40

We will be learning about Alabama facts, geography, history, and culture through individual projects, group activities, and guided research.

6th-8th Grade

IEW

Terese Hasty \$40

The IEW program is a proven and highly structured method of teaching writing. This class will follow the IEW program using the first three books in the Chronicles of Narnia as a source text.

Spanish

Cynthia Lara \$40

Learning Spanish through engaging activities, lively songs, and exciting games.

Building Strengths in Mathematical Reasoning Teresa King \$40

Exploring students' interests and knowledge of mathematical concepts and skills. A focus on Algebraic Reasoning and possibly some project based math.
